To increase registration rates further, PSA is implementing several strategies. PhilSys-On-Wheels brings registration services to remote areas. Colocation in job fairs and DSWD family development sessions allows individuals to register during community events. House-to-house registration reaches those unable to visit registration centers. Additionally, the registration of children aged 1-4 years old ensures that younger family members are also included.

PSA remains committed to ensuring all residents of Region 6 are registered to the PhilSys. Residents who have not yet registered are encouraged to do so to gain access to secure identification and essential services. For more information, visit the PSA website or contact your local PSA Office.
