*Unlock the benefits of the National ID Authentication Services: Enhanced identity verification, streamlined service delivery, stronger data security, reduced fraud, inclusive access, and seamless interoperability.*

The Philippine Statistics Authority Regional Statistical Services Office 6 (PSA RSSO 6) enjoins government agencies, financial institutions, and private organizations in Western Visayas to integrate with the National ID Authentication Services—a transformative initiative designed to improve service delivery, strengthen data security, and enhance inclusivity in the region.

As a cornerstone of the Philippine Identification System (PhilSys), the National ID provides a unified digital identity for all Filipinos, streamlining access to services and reducing the need for multiple forms of identification.

Organizations that become Relying Parties (RPs) to the National ID Authentication Services will benefit from enhanced identity verification, reduced fraud, and simplified administrative processes. This initiative also paves the way for underserved communities in Western Visayas to gain greater access to essential services.

To join this initiative, organizations can register and submit requirements through the eVerify portal at <https://everify.gov.ph>.
